INNOVATIVE INFRARED HEATING OF UNCOMPROMISING QUALITY

Hospitality

Domestic

Commercial

**In all commercial domestic and hospitality environments serene infrared electric heaters are the best choice!**

- All Serene heaters feature heavy duty mounting brackets that allow the heaters to be wall or pole mounted (S6068) wall mounted or hung from a ceiling (S6066) or are totally portable (S6069).
- Our Outdoor heaters have a high IP (ingress proof) ratings of IP 65 or IP54 for long efficient life in harsh Hot, Cold and Dusty conditions. Most cheap retail Outdoor heater that have IP ratings of only IP20 or 21 and will only last a year or two.
- Directional heat with no toxic polluting Gas emissions and 90% cheaper to run than polluting Gas heaters.
- Built from heavy duty di-cast aluminium to commercial standards to deliver trouble free performance for many years.
- Perfect also for INDOOR use in large spaces, public building, warehouses, churches sports venues & halls.
- Serene Short Wave High Intensity Quartz heaters work like the sun and have a warming effect the instant the heaters are switched on warming people and objects rather than the air thus they only need to be ON when the area is occupied.
- All Serene Infrared heaters feature new generation ULG Ultra Low Glare gold lamps that reduce glare by 70% and last for up to 7000 hours.
- Serene Bluetooth and remote control systems on the Shadow ULG S6066 enable heat output to be varied from 3 to 100% allowing these heaters to be the cheapest to run of all Outdoor heaters.

# SORROCCO

Designed specifically for maximum heat output with an oversized polished reflector and high end Gold quartz 3000-hour halogen infrared lamp.

## QUALITY DESIGN

'Sorroco' is designed and built to commercial standards from the highest quality materials to last many years and features the latest low glare reflector protected by crystal safety glass lens. Perfect for Domestic Hospitality and Commercial applications as Sorroco can also be used indoors.

## HIGH PERFORMANCE

'Sorroco' comfortably heats an area of 5 -10 square meters using a patented gold coated infrared lamp that emits no UV and last 3000 hours. Up to 90% cheaper to run than polluting gas heaters.

## WEATHERPROOF

To **IP54** and safe to be used in any climate, from tropical heat to torrential rain, dusty conditions or intense cold.

## 5 YEAR REPLACEMENT WARRANTY

Many cheap units fail or leak after a few months use but 'Sorroco' is designed to give many years of service under tough conditions.

## FLEXIBLE USE

Designed to be used for a large variety of applications with 'easy-mount' wall and pole brackets included plus a heat lamp that is easy to change by the user.

## EASY TO INSTALL

'Sorroco' can be plugged into any suitable power outlets or directly wired and the heavy duty brackets are easy to fix.

Model S6068

**INFRARED ELECTRIC OUTDOOR HEATING HAS SIGNIFICANT BENEFITS COMPARED TO GAS HEATING**

- ✓ Up to 90% lower running costs
- ✓ Instant heat with no initial warm up time
- ✓ Heat does not blow out in a breeze
- ✓ Safe and odourless
